Nasturtiums, table bouquet.....	50	25
Best House Plants of 4, any variety in bloom.....	1.00	
Gladioli, 1 spike, any color.....	25	
Best collection of scented flowers.....	50	
Best collection for table bouquet.....	75	
Sunflower.....	50	
Perennials, special prize.....	1.00	

A news item recently carried by an Edmonton paper states that the nemesis for unprepared students in high schools is drawing near. It is expected that fully 35,000 students will write departmental examinations during the latter part of June, an increase of about five per cent. over last year, when 14,982 wrote high school examinations and 8,296 those for public schools. There will be no change in the system of examining the students from that in force last year. All candidates from grades 8, 9 and 10 in all sections of the province will be allowed to write at their own schools, while those from grades 11 and 12 will have to write at centres selected by Edmonton officials. Already there are 12 men busy at the legislative buildings, preparing material to be used by the students in writing examinations. As a rule it requires five weeks to assemble supplies such as pens, ink, foolscap and blotters as well as pack the papers. All this material is supplied by the department of education. Marking of papers will commence about July 4 and fully 300 teachers will be engaged in this work as well as a clerical staff of 50.

The large number of trees which failed to survive the winter is being made a matter of note in many sections of this part of the province. Theories as to the cause include the very dry fall, and also a suspicion that warm days in February and March caused the sap to circulate in the trees and following cold weather killed them. Whatever the cause in this vicinity a very considerable percentage of the trees appear to have been killed outright, while many others have been seriously damaged.

The Women's Institute wish to publicly thank Dr. Egbert and Dr. Heel for their service in connection with the recent school clinic. Also Mrs. Millie Mrs. Alcock, Mrs. Hunt and Miss Versluis for valuable assistance given. They extend their thanks to Mrs. Alexander for the use of her house for the baby clinic, and to the ladies who contributed to the success of the event.

Champion won from Barons at Carmanag on Wednesday afternoon in an exhibition game. The score was 9 to 11.

## Musical Recital Highly Successful

The musical recital by Miss Ruby Graham's pupils filled the Community Hall on Thursday evening last. The program, published in a recent issue, was carried out without change and met with unqualified approval from the large crowd. Miss Graham's pupils without exception "done themselves proud," and put on a performance which must have pleased teacher, parents and everyone concerned. Those assisting in the programme were Mrs. (Dr.) Almond of Vulcan, who rendered three delightful solos; Miss Gladys Rhodes of violin fame, who seems to reach new heights in performance at every appearance, and Mr. G. M. Campbell who was at his very best. Encores were banned for the evening, so the audience was deprived of one popular method of expressing their enthusiasm but their generosity with applause was unmitigated. Miss Graham is to be highly complimented on the success of the recital.

Mr. Joseph Hicks, local solicitor, was a business visitor to Lomond on Thursday and Friday attending a police court, held before Mr. Baker, police magistrate of that place. Three cases were heard in which Mr. Hicks conducted the defence of the accused. Phillip Flath being charged with being in possession of a weapon without having a permit, being an alien. The accused was fined \$5.00 and costs. Phillip Flath was again charged with assault on one Donald Smith by a gesture. The case was defended for two days and ten witnesses gave evidence. The evidence of the prosecution was very contradictory on all important points and absolutely denied by the defence witness. Yet the magistrate, because the accused had been warned to keep off the Pleasant farm, found the accused guilty of assault at a different place on the road a mile away and find the accused \$100 and costs. The case is being appealed. On identically the same evidence Alie. Flath was dismissed on a charge for the same offence, on the same person, and at the same time.

A meeting of the executive and finance committee of the World's Grain exhibition and conference under the chairmanship of Hon. W. C. Buckle, minister of agriculture, Saskatchewan, has been called to meet in Regina on June 5 at 10 a.m. Among the more important matters to be considered are the revision of the competitive classes for corn, the report of the publicity committee and the report of the exhibition committee.

### CHAUTAUQUA

Please note that up until 8:30 on opening night all seats will be held for season ticket holders only. Get your tickets now.

Monday night the boys and girls of Champion are going to give you a half hrs. delightful entertainment before the regular programme at 8:15.

Last but not least a word about the opening play Saturday night. It is the best play Chautauqua has been able to bring to you for some years. It was the big success of the season on Broadway were it ran for 32 consecutive weeks. Its modern, its funny. A play everyone can enjoy. Don't miss it.

### Talking Pictures For Champion Theatre

After many weeks of negotiations our local theatre manager, Mr. Campbell has made final arrangements with the Mayfair Picture Show's Ltd. to include Champion on their circuit.

Every second Wednesday, beginning Wednesday June 11th, will be Champion's dates.

The opening Talking Picture Feature for Wednesday June 11th will be, "The Gold Diggers of Broadway" all in Technicolor and without a doubt the most wonderful laughing picture yet produced, and to get this big one for Champion's opening date is surely a scoop.

The regular silent features will continue as usual every Saturday night.

Chautauqua May 31, June 2, 3, 4, at Champion.

Advertisements of Wanted, Lost, Found, Strayed, etc., not exceeding one inch, 50 cents for first insertion 25 cents for each subsequent insertion.

Commercial rates on application.

THURSDAY, May 20, 1930

**NOTES AND COMMENT.**

One of the delegates from the U.F.A. convention, held last week at Vulcan, came back with the statement that the best thing the government could do would be to borrow \$40,000,000 more and put the amount into roads. At the time this idea seemed an attempt to more than justify the present government from a financial point of view. On further consideration it would appear to be a general feature of farmer financing to a great extent. If credits were easy just how much money would be borrowed in this province this year by farmers? Then why not justify a government in using the province's credit to the limit for any purpose? What is harder to understand is the endorsement of new taxes of every description by farmers when their own affairs are in an almost precarious condition. Some day the reckoning will come with a vengeance.

Chautauqua will be the general center of interest for the major portion of the coming week.

**Government Fortnightly Crop Report**

During the first week of the past fortnight the weather was generally clear with slightly higher temperature prevailing. Local rains occurred in the southern and Eastern parts of the province. High winds were of frequent occurrence and some damage resulted due to soil drifting. On May 20th a heavy wind swept over the central portion of the province particularly from Olds to Lacombe and eastward, doing damage to crops sown on summer-fallow. In the Edmonton district the wind was followed by rain and snow, the greatest snow being reported from the area lying North of Edmonton, though not extending to the Peace River district. A large area to the south and east of this city received a supply of much needed moisture. As present all parts of the province

report sufficient moisture for immediate needs. Frost has done considerable damage to trees, shrubs and early garden plants but only slight damage to field crops.

All wheat is seeded and 75 per cent above ground. Oat seeding is complete with the exception of oats for green feed and barley is 75 per cent sown. Growth is slow but the grain is of good color and establishing a good root system. The crop has gone in early and having sufficient moisture for germination is away to a good start. All spring rye and 90 per cent of sugar beets is seeded. There is a slight increase in the area devoted to sugar beets. Weeds are unusually bad in early sown fields. Slight damage is reported due to wire worms out and worms.

Correspondents generally agree that an increased acreage has been sown of sweet clover, alfalfa and grasses. Hay and pasture crops are making excellent growth and livestock is progressing favorably.

**Baby Chicks**

Thousands of pure bred chicks hatching twice each week for immediate delivery. 100 per cent live arrival guaranteed. The weather is warm, broody hens are waiting. Rush your order. Pay for the chicks when they arrive. We will ship C.O.D. subject to inspection. We guarantee our chicks.

**"Pollyanna" to Be Presented at Canadian Chautauqua**

SCENE FROM "POLLYANNA"

"Pollyanna," the outstanding comedy-drama to be presented at the coming Canadian Chautauqua here this season. Based on Eleanor Porter's famous novel, by the same name, Pollyanna, with her sunny optimism and her philosophy of gladness, has been transferred to the stage by Catherine Childers Graham. In the play which will be seen here extraordinary fidelity to the character in Miss Porter's novel. Here is a great play, filled with laughter, pathos, gripping drama and romance, and leaving its audience in a glow of good humor.

**Popular Play "Pollyanna" Coming to Canadian Chautauqua**

SCENE FROM "POLLYANNA"

One of the most inspiring plays ever written is "Pollyanna," which comes to the Canadian Chautauqua here this season. Based on Eleanor Porter's famous novel, by the same name, this captivating comedy-drama possesses a certain whimsical charm that reminds one of Barrie's beautiful plays. A well-known critic says: "Pollyanna" is one of those rare plays which are likely to become institutions of the stage like "Peter Pan."

"Pollyanna" abounds in fun and humor. There is not a dull moment in the four acts through which the lovable little heroine pursues her way, spreading her philosophy of gladness and winning the hearts of all whom she meets. It will be presented here by the Martin Erwin Players of Canada.

**Gum-Dipped**

for Extra Strength and Mileage

BENEATH the rugged safety tread of toughest rubber, Firestone Tires have the strongest, most durable cord construction ever known. Layer upon layer of cords are scientifically twisted for greatest strength and elasticity... then dipped in pure rubber which protects every fibre against internal heat and friction. Gum-Dipping doubles flexing life and adds thousands of extra miles of dependable, trouble-free service. Only Firestone Tires are Gum-Dipped—No other tire has its advantages. Because of this extra process, Firestone tires hold all world records for mileage and endurance.

# Canadians Have Much To Learn About Vast Empire Being Developed In North

So vast is the Canadian heritage and so numerous are the points of interest and promise of great and continuous development, that it is almost to the most astute of newspaper readers to keep in touch even with his own province. For more distant information he is dependent on re-motest sources and therefore has all the more reason to appreciate editorial and other articles outlining what is being done in districts that are only in process of being opened to the light of day. Recently the Lethbridge Herald touched on the development of the Alberta Northland and remarked that as this is proceeding so British Columbia's great block of land east of the Rockies is coming in for a lot of attention. Speaking recently about the possibilities of this region it quoted Hon. P. F. Burke, Minister of Lands of that province, as saying that the section had one of the best bodies of coal in the continent and according to coal authorities it was the only coal on the continent that would smelt without coking.

In close proximity to the Lethbridge said, was a great body of iron ore. In years to come, he believed, a great steel and iron industry would be developed and would create a big demand for the agricultural products of the district.

There were also other minerals, the minister said, and possible hydro-development at low cost. The Herald repeats its view previously expressed that in the vicinity of the head waters of the Peace River, and where they cut through the backbone of the continent on their way to the Arctic, there is a veritable empire of wealth such as few Canadians even dream of. Here are to be found valuable commercial timber and pulpwood. The grounding coasts in which the late Lord Dundas was interested lie in that area. Close by there are said to be mountains of iron, while it is also stated that mines as rich as the Sullivan at Kimberley may be developed. And with it all this is, in the Peace River Canyon, water power capable of developing within a 12-mile stretch something like 1,500,000 horsepower.

While there is so much talk of a coal outlet for the Peace River country, it is well to bear in mind that the development of the mining, lumbering, pulpwood and hydro-power possibilities along the Peace River head waters, is practically certain to open up a route through the northern section of British Columbia. Somewhere along the course of that route will be a railway, and situated upon it, close to the Pacific, and closer to the Orient than any other British Columbia city, will be a modern city founded upon the wealth of resources in that area.

We really know very little as yet, the Herald says truly, about the great northland which, in a few years, will be pouring its treasures into the world's markets and bringing back new wealth to Western Canada.

## Settlers Are Keeping Ahead Of Railways

### District In Northern Saskatchewan Rapidly Filling Up

Settlers are still keeping far in advance of the railway in the opening of the north. For the past 10 or 12 years good crops have been grown in the Mendon Lake district, 100 miles north of North Battleford, and the growers have hauled their grain 60 miles to the nearest railway line.

This year the Canadian Pacific Railway is building a line through Mendon Lake and the Mendon Lake is no longer the frontier town. Every week hay-racks containing settlers' effects are to be seen ferrying the Beaver River, 20 miles north, making for a district on the other side which is rapidly filling up.

## Britain Acclaims Canadian Wheat

Sir James Dunn Says Manitoba Product Makes Best Bread - All who are interested in Empire Free Trade should make it their duty to demand an "Empire Loan" - made of wheat flour produced in the British Empire - and popularize it among their friends, says Sir James Dunn, in a letter to the London Evening Standard.

Sir James, a native of Bathurst, New Brunswick, and now a prominent lawyer and husband of the Marchioness of Queensbury, says that apart from any question of imperial sentiment, the Empire loaf consisting of 83 per cent. Manitoba wheat, is the best bread in the world. His own researches into the relative nutritive values of Canadian and competitive wheats have shown the Manitoba wheat produces a bigger and lighter loaf, which gives greater nourishment than bread made from any other flour, he says.

(By Anabelle Worthington)

## 3279

Ideal interpretation of wrap-around with drapes at side that combines with the surplus bodice that fastens at hip with buckle, to give the figure graceful lines. The main waistline is indicated by seams which makes the light it through the hips and moulded line of bodice more prominent. The neckline with surplus vestee is unusually becoming fashion.

Style No. 3279 is distinctly smart in novelty silk and wool crepe in dark plain tones. The shawl collar is of plain fallie crepe in blending tone, while the vest chooses white tone.

It is designed in sizes 16, 18 years, 40, 42 and 44 inches bust. It's a model that makes up most attractively in crepe. The bodice and two surfaces can be nicely worked out for contrasting effect. The dark brown shade is especially popular. Black silk crepe with eggshell vest is chic for all-day occasions and is favorite with smart women.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

Goldfishers in England recently beat a 1000 lb. gold one and one-quarter inches square and one-third of an inch thick into 15 sheets of gold, each five inches square.

## Rice Growers To Compete

British Guiana May Have Exhibit At World Grain Show - In all probability rice growers from British Guiana will be represented in the competitive classes at the World's Grain Show, according to a letter received at the exhibition office, Regina, from J. Sydney Dashi, director of the Department of Agriculture, Georgetown, British Guiana.

The compilers of the prize-list for the 1932 World's Grain Exhibition designed to make it as attractive as possible to the growers of all countries. For this reason, apart from the fact that the cash awards offered are higher than have been offered ever before, the classification embraces practically all of the grain and seed crops cultivated the world over.

The rice growers of British Guiana, one of the smaller parts of the British Empire located in the tropical regions of northern South America, are showing a keen interest, and according to word received at the World Grain Show office from Mr. Dashi, exhibits of rice may be expected from that country. In concluding his letter Mr. Dashi says that he hopes his colony will be able to take part in your exhibition and in his year 1932. I shall endeavor to make it possible for you to have the opportunity to participate."

## For Healthy Poultry

Clean Soil In Run Necessary For Growing Chicks

Clean soil in the run is the one sure cure and prevention for the most destructive poultry disease, intestinal parasitism, asserts the Poultry Husbandman of the Dominion Department of Agriculture. And practicing what he preaches, the poultry runs at the Central Experimental Farm have been kept clean and free from the rotation system of soil cleaning is under way on the runs used last year. A succession of hoed, grain and green crops is used to remove all possible infection from intestinal parasites. Poultry should always be kept on clean soil, especially growing chicks, and crop rotation on the poultry run is the one most effective way of enabling nature to do the trick.

## Increase In Plant Imports

Canada Bringing In Large Number For Parks and Gardens - Canada's appreciation for the aesthetic in parks, garden and amateur horticulture is reflected in the amazing increase which is reported in the importations of trees, shrubs, roots, perennials and bulbs. In 1919 the Plant Inspection Service of the Dominion Department of Agriculture examined 90,000 plants, etc., at ports of entry, while in 1929 the number examined was over 400,000. Inspection stations are maintained at Halifax, St. John, Quebec City, Montreal, Ottawa, Toronto, Niagara Falls, Windsor, Winnipeg, Estevan and Vancouver, where imported plants are examined to ensure freedom from insect pests and plant diseases.

## Curious Custom In Ceylon

At a funeral recently of a native Ceylonese, Ceylon, friends brought many gifts to the corpse. Each had something different, including cooked meat, fruit and liquids. As the coffin was conveyed to the burial place on a huge plank and white structure resembling an ice cake, the gift-bearers accompanied it in solemn procession.

## Department of Agriculture Is Studying Problems of The Ranching Industry

The following article was prepared at the direction of Dr. J. H. Orin, Deputy Minister of Agriculture, by Mr. E. S. Archibald, director, Dominion Experimental Farms, Ottawa.

Previous to 1921, when the beef cattle industry in Canada was in a thriving condition, a very small investment, outside of that in cattle, was necessary to carry on the business. With the coming of the settler and the consequent splitting up of the open range, the rancher was confined to a definite area. This change necessitated a more economical use of the range and the construction of fences, the development of watering places, and the production of winter feed. With these increased costs, the attention was paid to the class of cattle raised, the percentage calf crop, and the death losses. Although the best known grazing practices followed there was a decline in the carrying capacity of the ranges, and many areas became badly overgrazed. The result was depleted pastures, less thrifty cattle entering the market, and sub-normal gains in weight by marketable and breeding cattle.

## University Is Loser

Alberta Regrets Removal Of Professor A. L. Burr To Minnesota

Anyone who went through the classrooms of Professor A. L. Burr of the University of Alberta, or heard him speak in public, will regret to hear that he is going to the University of Minnesota. For seventeen years, except for a period of war service, Dr. Burr has been at Alberta. He graduated from Toronto and was a Rhodes scholar. Paying tribute to him, Dr. R. C. Wallace, president of the University, said: "He has established his position in a very notable way with the students of history in the University, and his books and other contributions to the field of history have given him a place in the world of accurate scholarship." Prof. Burr's "The Ranching of Western Canada" was published this year.

## Government Farms Are Busy Extensive Research Carried Out By Dominion Department Of Agriculture

An appreciation of the range and extent of applied agricultural research carried out by the Experimental farms and stations of the Dominion Department of Agriculture throughout Canada is afforded by the report of the Director, Dr. E. S. Archibald. At the time this report was prepared there were 2,403 active experimental projects in operation, ranging in application from "Agroclimatology" to "Tobacco." Horticulture heads the list with a total of 641 active experimental projects; then in order come animal husbandry, 421; botany, 285; field chemistry, 282; poultry husbandry, 188; agronomy, 149; cereals, 142; chemistry, 103; illustration stations, 70; tobacco, 69; bees, 63, and pathology, 25.

## A Misunderstanding

"Surely, John, you haven't brought any one home to dinner?" "Sure I have. Haven't you got anything for you?" "Why, no, you told me you'd bring home a couple of lobsters for dinner." "So I have. They're waiting in the parlor."

## High-Class Poultry and Eggs

Believe it or not this picture represents 700 worth of high class poultry and hatching. Not many of them, it is true, but these hens are worth about \$20 apiece while the three roosters retail at the market price of \$100 each. The shipment is part of a big order being filled by the Record of Production breeders in co-operation with the University of British Columbia for poultrymen in the Hawaiian Islands, China and Japan. Each hen in the shipment has a record of more than 300 eggs per year, while the roosters also have imposing records. The shipment left Vancouver recently aboard the Canadian Pacific liner "Empress of Canada," for Honolulu.

## Department of Agriculture Is Studying Problems of The Ranching Industry

The following article was prepared at the direction of Dr. J. H. Orin, Deputy Minister of Agriculture, by Mr. E. S. Archibald, director, Dominion Experimental Farms, Ottawa.

Previous to 1921, when the beef cattle industry in Canada was in a thriving condition, a very small investment, outside of that in cattle, was necessary to carry on the business. With the coming of the settler and the consequent splitting up of the open range, the rancher was confined to a definite area. This change necessitated a more economical use of the range and the construction of fences, the development of watering places, and the production of winter feed. With these increased costs, the attention was paid to the class of cattle raised, the percentage calf crop, and the death losses. Although the best known grazing practices followed there was a decline in the carrying capacity of the ranges, and many areas became badly overgrazed. The result was depleted pastures, less thrifty cattle entering the market, and sub-normal gains in weight by marketable and breeding cattle.

It was not until 1925 that a department was created for the study of the range, and following a survey in 1926, by the Dominion Experimental Farms, Department of Agriculture, was decided to conduct experiments on the short grass plains to study methods of range management, with the object of improving the carrying capacity. As the outright purchase and equipping of an experimental ranch appeared to be unwise because of the large cost involved, it was decided that it would be more economical and more useful to co-operate with some rancher who had a long experience in ranching. Gilchrist Brothers, of Medicine Hat, Alberta, offered their co-operation, which was accepted and the experiments are now being carried out on this ranch.

The main project under investigation is known as the deferred and rotation system of grazing. It is usually carried out on three pastures, depending upon the condition under which it is practised. The system is designed to defer grazing on each pasture twice in six years to allow each pasture to mature a crop of grass. On the station, four fields, occupying 3,740 acres, are used to determine the practicability of the scheme. The fourth field is grazed continuously and serves as a check on the other fields. In order to determine the efficiency of this system of grazing as a whole and whether or not the other fields are improved, a thorough study of all factors affecting it is made.

An essential factor in range management is a reliable water supply. In this connection the development of natural watering facilities is being investigated. Other factors in range management being studied include the use of salt, the gains in weight by different classes of cattle, the possible effect of the grazing period on the palatability and nutritive value of the range vegetation, the question of deterioration in the feeding value of hay kept several years in reserve, and the effect of frequent cutting on range hay production. An fencing occupies an important place in the ranch operations, the use of wood preservatives for the posts and cost of construction and maintenance are also being investigated.

In addition to the projects at the range station there are several other investigations being conducted in Alberta, Saskatchewan, and British Columbia, including an economic study of the vegetation, reseeding tests on burnt-over land, and a number of trials in the growing of forage crops for winter feeding. A beginning has been made on the study of the cost of production of range cattle in the different grazing areas, the object being, first, to learn the financial importance of different factors in the cattle business; secondly, to present a fair picture of the industry, and thirdly, to analyze the business for the purpose of learning which are the most profitable range practices to follow in the different localities.

New projects to be studied during 1930 will be the determination of the carrying capacity of the range land on the short grass plains, the winter feeding of cattle, the use of home-grown roughages and their economic value for fattening younger steers to maturity, and the value of supplemental feeding to cows on winter range.

When more complete information is available on summer grazing, winter feeding, and on cost of production, a fairly complete knowledge of

## Might Increase Apple Sales

Vending Machine Offers New Market For Canadian Product

One of the most interesting and important developments in connection with the marketing of apples in recent years is the automatic vending machine. Officials of the Fruit Branch of the Dominion Department of Agriculture are watching this development with special interest at the present time and Commissioner G. E. McIntosh states: "I think it will

provide a new means of marketing apples which will prove at once popular and effective."

The new machines, of which there are two types on the market at the present time, have been tried out with surprisingly satisfactory results on a number of occasions. At the Royal Winter Fair, Toronto, last year, several of these machines were in operation and the sales for each machine ranged from 3,000 to 7,000 apples per day.

The automatic apple vendor is a "nickel-in-the-slot" contrivance by which the customer may select the size, variety and color of the apple he desires. Both the wall and cylinder type machine carry the apples in trays with glass tops so that they are entirely visible. The apples are kept in perfect condition through the use of dry ice, and the automatic vendor provides the individual an opportunity to get "an apple a day," or what is more important, an apple when it is wanted.

An idea of the potential sales value of these machines in operation is afforded by the experience at the Royal Winter Fair. The machines there in the week they were in operation averaged sales of 2,500 boxes of fancy fruit of an average size of 125 apples to the box; at 5c apiece this meant \$6.25 a box or well over \$15,000 from the machine sales during the period of the Fair.

British Columbia has taken the lead in the introduction of the sale of apples by this type of appliance. One hundred machines being now in operation in the City of Vancouver and fifty being installed in Victoria.

## Sweden Is Prosperous Has Small Population But Is Very Progressive

Sweden, which has a population less than that of London, is one of the most prosperous of European countries. Though only a third of the small population lives in towns, Sweden is remarkably go-ahead in all matters of art, the domestic architecture, and so on. The Town Hall of Stockholm is one of the finest buildings in the world. There was a time when Sweden made a great stir in the affairs of Europe, when, united in national sentiment, it was the ally of her neighbors, she waged war on Germany, Russia and Poland; her ships were the terror of the seas. Sweden was a great power in the world. There was a time when Sweden made a great stir in the affairs of Europe, when, united in national sentiment, it was the ally of her neighbors, she waged war on Germany, Russia and Poland; her ships were the terror of the seas. Sweden was a great power in the world. Today they are otherwise. The country has a great past and a most contented present—which is the best we would desire for any nation.

Woman claims equal rights with man in Japan as a pearl diver. Before the Jap girl is 15 she knows all about diving and is used to bringing up oysters from depths of more than 25 fathoms.

Jinks—"Have you ever lost your temper before your wife?" "No," she says, "she beats me to it every time."

"It is the master! But where is his cat?" "He has his cat with him!" "We wondered why he kept asking us to shut the window as we dragged him home?" — Fliegende Blätter, Munich

1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2025, 2026, 2027, 2028, 2029, 2030, 2031, 2032, 2033, 2034, 2035, 2036, 2037, 2038, 2039, 2040, 2041, 2042, 2043, 2044, 2045, 2046, 2047, 2048, 2049, 2050, 2051, 2052, 2053, 2054, 2055, 2056, 2057, 2058, 2059, 2060, 2061, 2062, 2063, 2064, 2065, 2066, 2067, 2068, 2069, 2070, 2071, 2072, 2073, 2074, 2075, 2076, 2077, 2078, 2079, 2080, 2081, 2082, 2083, 2084, 2085, 2086, 2087, 2088, 2089, 2090, 2091, 2092, 2093, 2094, 2095, 2096, 2097, 2098, 2099, 2100, 2101, 2102, 2103, 2104, 2105, 2106, 2107, 2108, 2109, 2110, 2111, 2112, 2113, 2114, 2115, 2116, 2117, 2118, 2119, 2120, 2121, 2122, 2123, 2124, 2125, 2126, 2127, 2128, 2129, 2130, 2131, 2132, 2133, 2134, 2135, 2136, 2137, 2138, 2139, 2140, 2141, 2142, 2143, 2144, 2145, 2146, 2147, 2148, 2149, 2150, 2151, 2152, 2153, 2154, 2155, 2156, 2157, 2158, 2159, 2160, 2161, 2162, 2163, 2164, 2165, 2166, 2167, 2168, 2169, 2170, 2171, 2172, 2173, 2174, 2175, 2176, 2177, 2178, 2179, 2180, 2181, 2182, 2183, 2184, 2185, 2186, 2187, 2188, 2189, 2190, 2191, 2192, 2193, 2194, 2195, 2196, 2197, 2198, 2199, 2200, 2201, 2202, 2203, 2204, 2205, 2206, 2207, 2208, 2209, 2210, 2211, 2212, 2213, 2214, 2215, 2216, 2217, 2218, 2219, 2220, 2221, 2222, 2223, 2224, 2225, 2226, 2227, 2228, 2229, 2230, 2231, 2232, 2233, 2234, 2235, 2236, 2237, 2238, 2239, 2240, 2241, 2242, 2243, 2244, 2245, 2246, 2247, 2248, 2249, 2250, 2251, 2252, 2253, 2254, 2255, 2256, 2257, 2258, 2259, 2260, 2261, 2262, 2263, 2264, 2265, 2266, 2267, 2268, 2269, 2270, 2271, 2272, 2273, 2274, 2275, 2276, 2277, 2278, 2279, 2280, 2281, 2282, 2283, 2284, 2285, 2286, 2287, 2288, 2289, 2290, 2291, 2292, 2293, 2294, 2295, 2296, 2297, 2298, 2299, 2300, 2301, 2302, 2303, 2304, 2305, 2306, 2307, 2308, 2309, 2310, 2311, 2312, 2313, 2314, 2315, 2316, 2317, 2318, 2319, 2320, 2321, 2322, 2323, 2324, 2325, 2326, 2327, 2328, 2329, 2330, 2331, 2332, 2333, 2334, 2335, 2336, 2337, 2338, 2339, 2340, 2341, 2342, 2343, 2344, 2345, 2346, 2347, 2348, 2349, 2350, 2351, 2352, 2353, 2354, 2355, 2356, 2357, 2358, 2359, 2360, 2361, 2362, 2363, 2364, 2365, 2366, 2367, 2368, 2369, 2370, 2371, 2372, 2373, 2374, 2375, 2376, 2377, 2378, 2379, 2380, 2381, 2382, 2383, 2384, 2385, 2386, 2387, 2388, 2389, 2390, 2391, 2392, 2393, 2394, 2395, 2396, 2397, 2398, 2399, 2400, 2401, 2402, 2403, 2404, 2405, 2406, 2407, 2408, 2409, 2410, 2411, 2412, 2413, 2414, 2415, 2416, 2417, 2418, 2419, 2420, 2421, 2422, 2423, 2424, 2425, 2426, 2427, 2428, 2429, 2430, 2431, 2432, 2433, 2434, 2435, 2436, 2437, 2438, 2439, 2440, 2441, 2442, 2443, 2444, 2445, 2446, 2447, 2448, 2449, 2450, 2451, 2452, 2453, 2454, 2455, 2456, 2457, 2458, 2459, 2460, 2461, 2462, 2463, 2464, 2465, 2466, 2467, 2468, 2469, 2470, 2471, 2472, 2473, 2474, 2475, 2476, 2477, 2478, 2479, 2480, 2481, 2482, 2483, 2484, 2485, 2486, 2487, 2488, 2489, 2490, 2491, 2492, 2493, 2494, 2495, 2496, 2497, 2498, 2499, 2500, 2501, 2502, 2503, 2504, 2505, 2506, 2507, 2508, 2509, 2510, 2511, 2512, 2513, 2514, 2515, 2516, 2517, 2518, 2519, 2520, 2521, 2522, 2523, 2524, 2525, 2526, 2527, 2528, 2529, 2530, 2531, 2532, 2533, 2534, 2535, 2536, 2537, 2538, 2539, 2540, 2541, 2542, 2543, 2544, 2545, 2546, 2547, 2548, 2549, 2550, 2551, 2552, 2553, 2554, 2555, 2556, 2557, 2558, 2559, 2560, 2561, 2562, 2563, 2564, 2565, 2566, 2567, 2568, 2569, 2570, 2571, 2572, 2573, 2574, 2575, 2576, 2577, 2578, 2579, 2580, 2581, 2582, 2583, 2584, 2585, 2586, 2587, 2588, 2589, 2590, 2591, 2592, 2593, 2594, 2595, 2596, 2597, 2598, 2599, 2600, 2601, 2602, 2603, 2604, 2605, 2606, 2607, 2608, 2609, 2610, 2611, 2612, 2613, 2614, 2615, 2616, 2617, 2618, 2619, 2620, 2621, 2622, 2623, 2624, 2625, 2626, 2627, 2628, 2629, 2630, 2631, 2632, 2633, 2634, 2635, 2636, 2637, 2638, 2639, 2640, 2641, 2642, 2643, 2644, 2645, 2646, 2647, 2648, 2649, 2650, 2651, 2652, 2653, 2654, 2655, 2656, 2657, 2658, 2659, 2660, 2661, 2662, 2663, 2664, 2665, 2666, 2667, 2668, 2669, 2670, 2671, 2672, 2673, 2674, 26

## DISCUSSION ON INSURANCE FOR THE UNEMPLOYED

Ottawa, Ont.—A scheme of unemployment insurance for Canada must of necessity be supported by government subsidies, said Prof. Gilbert, of the university of Toronto, addressing the Canadian Political Science Association in annual session here.

Even in England, Prof. Jackson said, where labor statistics dating back 60 years were available, it had been found necessary to support the scheme by state assistance. It would be almost impossible to carry on unemployment insurance by workers' contributions alone in Canada, where the expectation of employment in future seasons could not be as well charted as in England, even.

The unemployment situation was more cruel in Canada than in any other country because of fluctuations, not only in seasonal employment, but in demand for labor as between the various provinces.

Questions which, he contended, must be carefully considered before putting such insurance into effect were whether there was in Canada a sufficient body of public opinion in favor of it, and whether there was a sufficient body of public opinion in favor of it, and whether there was a sufficient body of public opinion in favor of it.

Beneficiaries of the scheme would be largely dependent on an associated scheme of health insurance, and a greatly extended employment placement service.

## No Duty On Foreign Wheat

British Government Is Opposed To Tax Says Minister  
London, England.—The question of preference for the Canadian wheat-grower in the British market over foreign wheat-growers came up in the House of Commons. Mr. C. H. Williams Graham, president of the Board of Trade, in reply to the suggestion, said the government did not intend to impose any duties on foreign wheat, so that the question of granting Canada preference did not arise.

The answer brought a spirited query from the Conservative benches. "Do we understand that the government's reply to the Canadian tariff concessions is that we can only treat them the same as any other foreign government?" Mr. Graham was asked.

"Not necessarily," the cabinet minister replied. "The question is one of a tax on all imported wheat. The government is opposed to this."

## Toronto Man Killed When Parachute Failed

Was Making First Attempt To Jump From Airplane

Toronto, Ont.—Attempting his first parachute jump from an airplane, Kenneth Burgess, Toronto, was killed when the parachute failed to open. The airplane was at an altitude of 1,500 feet when Burgess jumped. The unopened parachute caught on the tail of the telephone wire, hurling him into the ditch. He was alive when picked up and a doctor was summoned, but he died a few minutes later. The airplane was a Colonial Airways machine, which left the company's field near Dufferin street in North York Township.

Burgess is survived by his widow and two children.

## Special Stamp Issued

Melbourne, Australia.—During a short and intensive campaign to assist the appeal of the prime minister of Australia, Hon. James Henry Scullin, for the growing of more wheat this year, the post office department has issued a special cancellation stamp bearing the words: "Grow More Wheat."

No Press Men On Dirigible  
London, England.—The only press information that will be given respecting the H-10 dirigible which is to cross the Atlantic will be that kept by Wing Commander R. B. B. Colmore, who will release it on the return trip to Canada. On the return trip Canadian and British newspapermen will be carried.

## Dry Ice Test Shipment

Brandon, Man.—Two cars of eggs of the Manitoba Co-operative Poultry Association were shipped to the west under the dry ice test. This means insulated containers are placed in the cars and the resulting carbon dioxide gas preserves the eggs.

W. N. O. 1859

## Ask Amendment Of Criminal Code

Christian Scientists Want Clause Inserted For Their Protection

Toronto, Ont.—A despatch from Ottawa to the Toronto Star, says that in a bill introduced by the government to amend the criminal code, a change has been made at the request of Christian Scientists, in three sections, which deal with the obligations of heads of families, people in charge of the sick, and masters and mistresses of servants and apprentices under similar circumstances. It is explained the purpose of the section is to permit Christian Scientists to practice their beliefs without fear of prosecution.

The new sub-section which is suggested for the criminal code in this regard is as follows:

"Any obligation which may be involved in the two or three preceding sections to supply medical or surgical attendance, or 'necessaries' or 'necessaries of life,' shall not apply to, or affect persons using or depending on prayer or spiritual means for the treatment of human ailments as an enjoyment or exercise of religious freedom."

## Suggest Advisory Board

Commission Would Help To Solve Problem Of Immigration

Ottawa, Ont.—Establishment of a permanent advisory commission on immigration, on lines similar to the tariff board, was one of the many suggestions made at the annual meeting of the Canadian Political Science Association here. The suggestion was made in a paper by W. B. Hurd, of Brandon, Man.

In his opinion the regulation of immigration was a matter for scientific economists and sociologists, rather than politicians. A commission could make a continuous examination of employment and social conditions throughout Canada and could give expert advice to the government on the number and type of immigrants which could profitably be admitted. Persons interested in securing immigrants for any district would have to make application before the commission adducing evidence of an economic rather than a sentimental character.

## Will Arrange Rating

Bay Route To Be Brought Under Crown's Control

Ottawa.—Hon. T. A. Crerar, Minister of Railways, stated that it is the policy of the Federal Government to extend the crown's control over the Hudson Bay Railway. The railway will be in operation one year hence, and Mr. Crerar said he proposed to take immediate steps to discover what the legal position is. He will consult with the railway company and find out what the crown's position is.

Next Pass rates automatically applied to the new route. If not, he will initiate action to bring the Bay route under the crown's management.

## Saskatoon Cadets Victors

Win Junior Shield In Dominion Rifle

Ottawa, Ont.—A youthful team of cadets of Nutsa Collegiate Institute, Saskatoon, Sask., won the junior shield in the winter cadet shooting series held throughout Canada under the auspices of the Dominion of Canada Rifle Association. A report issued from headquarters of the association shows the Saskatoon cadets compiled a high average of 97.11 out of a possible 100. The Quebec Seminary team won the senior cadet shield with a shooting average of 98.80.

## Germany Contracts Report

Berlin, Germany.—A statement was published here from the Chinese north embassy by way of London, England, that the French authorities of Indo-China have intercepted a consignment to the Nanking government of poison gas, which, it was clearly intimated, came from Germany. The German foreign office, declaring it absurd anti-German propaganda.

## French Troops Leaving Rhineland

Frankfurt, Germany.—Evacuation of the Rhineland has been officially started in this sector of the zone of occupation. Heavy artillery, pioneer equipment and columns of troops are moving toward France in the final exodus which will strip the Rhine of French soldiers.

## Nansen's Successor

Oslo, Norway.—Prof. H. O. Svendsen, of the University of Oslo, has been named to succeed the late Dr. Fridtjof Nansen, explorer, as leader of the proposed Graf Zeppelin Arctic flight.

## Naval Agreement Is Attacked By Admirals

Places Their Navy In Inferior Position Say U.S. Officers

Washington, D.C.—Two more admirals told senate committees that the London naval treaty would leave the United States in a position of inferiority.

Rear Admiral J. V. Chase, of the General Board, said the pact did not represent the views of Great Britain, and had many other flaws from the viewpoint of a navy man.

Although he was an adviser at the London conference, Rear Admiral J. R. P. Pringle said, he was consulted but once by the United States delegation. He advised the delegates against the crutcher arrangement they finally accepted.

## HOUSE UNITED IN ENDORSING PENSIONS BILL

Ottawa, Ont.—The government and the opposition united in expressing appreciation for the work of the parliament in passing the pension bill.

When the bill to amend the pension act was before the House of Commons in committee, Mr. J. H. King, Minister of Pensions and National Health, said the bill was a landmark in the history of the pension act. It was a landmark in the history of the pension act. It was a landmark in the history of the pension act.

When he arose to explain the bill, Hon. Mr. J. H. King, Minister of Pensions and National Health, said the bill was a landmark in the history of the pension act.

The bill revises the machinery for dealing with appeals of soldiers from the pension board. It provides a general board to prepare the cases for soldiers. An important change gives a veteran the advantage when he has a reasonable doubt as to whether his incapacity was due to war service.

Colleges running the committee on the patient consideration and expert knowledge brought to this important question, Hon. R. B. Bennett said its members were endeared to the thanks of the nation. The committee was composed of men with first hand experience of soldiers' problems. He especially praised the chairman, C. G. Power (Liberal, Quebec South).

No difference of opinion existed among the committee members. A conservative leader declared, as to the pensions problem. They wanted a measure of generous compensation for all those who had risked their lives for this country. It assured the returned man the country was behind him, said Mr. Bennett.

There was nothing partisan in the bill or in the methods by which the committee had worked.

## NEW POET LAUREATE

John Maschell, some time sailor and vagabond, who has been appointed poet laureate of England.

The poems "Dauber" and "The Everlasting Mercy," and novel "Sard Harker" are among his better known works.

## Wants Public Represented

People Interested In Veterans' Allowance Act Says Major-General MacDonnell

Ottawa, Ont.—Criticism of the plan to appoint the committee to administer the War Veterans' Allowance Act by majority of returned men was made by Major-General A. MacDonnell, member of the Senate committee investigating the bill. Dr. J. A. Anvot, Deputy Minister of the Department of Pensions, had contended the committee it was the intention to appoint veterans to the committee. General MacDonnell did not intend that returned men could not fill the offices, but he believed the general public should be represented as well. Could the judges could be utilized, he suggested, and they would bring to the committee experience that the majority of returned soldiers lacked.

## Change Will Assist Trade

Canadian Tariff Gives Many Advantages To British Manufactures

London, England.—Hon. W. R. Smith, parliamentary secretary to the Board of Trade, said in the House of Commons, the changes in the Canadian tariff would affect business operations in a great many ways. Every effort was being made to assist manufacturers and traders to take advantage of the new tariff, he said. While the department of overseas trade believed no practical purpose could be served by such a conference it would be glad to adopt the proposals of particular groups if they felt that consultation would be useful, he concluded.

## Japanese Immigration

Ottawa, Ont.—Two hundred and thirty-four Japanese immigrants have been admitted to Canada since September 1, 1928, up to the end of the month of October.

The number of Japanese immigrants admitted to Canada since September 1, 1928, up to the end of the month of October, was 234. The number of Japanese immigrants admitted to Canada since September 1, 1928, up to the end of the month of October, was 234.

## Jolly Beggars Broadcast Joy

Company, from 8.15 to 9.45, Eastern Daylight Saving Time, on Sunday, May 18.

The following artists took part in the programme: J. Campbell McIntyre, "The Jolly Beggars"; Miss Davies Wynne as "The Widow of a Highland Freebooter"; Poole Nance; Alfred Heather as "A Bard and Ballad Singer"; and Jean Haig as "The Soldier's Love." The first song of this opera is of special interest as it contains a reference to the battle between Wolfe and Montcalm.

## Considering Reverse "Rhodes Scholarships"

Would Permit English Boys To Attend Canadian Universities

Toronto, Ont.—Sir Robert Falconer, president of the University of Toronto, announces the establishment of a reverse "Rhodes Scholarship" is being considered by a committee of educationists to permit English boys to attend Canadian universities.

Dr. Cyril Norwood, chairman of the party of English schoolmasters which recently visited Canada, strongly advocated such an exchange of students, stressing his wish to see English boys specialize in economics and science. In praising the idea, Chancellor H. P. Whidden, of McMaster University, said, "I consider the point by Dr. Norwood, that Canada offers opportunities in the scientific and economic fields is well taken. One would hardly expect English students to study classics here when such excellent facilities are offered at Oxford."

Gen. C. H. Mitchell, dean of the faculty of applied sciences of the University of Toronto, termed the scheme of "Reverse Scholarships" practical and feasible.

## Conciliation Board To Settle Dispute

Dockers At Vancouver Wish Alteration In Renewal Agreement

Ottawa, Ont.—A labor dispute involving 1,100 water front workers in Vancouver and district is to be settled by a conciliation board.

The Industrial Disputes Investigation Act, Hon. Peter Heenan, Minister of Labor, announced. The parties involved in the Shipping Federation of British Columbia and some of their employees who are members of the Vancouver and District Waterfront Workers' Association.

The men wish the renewal of the agreement with the employers covered by the working conditions which expired November 30, 1929, with certain alterations. Two members of the board of conciliation already been appointed: R. B. Pirie, of Vancouver, on the recommendation of the employers, and J. E. Hall on the recommendation of the employees.

Mr. Heenan is awaiting word from these two board members as to the selection of a third member who will act as chairman.

## NEW TARIFF ON FRUITS IS TO BE AMENDED

Ottawa, Ont.—Amendments will be introduced to a number of items in the tariff schedule affecting fruits and vegetables.

Hon. C. A. Dunning, Minister of Finance, announced in the House of Commons. The changes will apply to the tariff schedule for new schedule have ad valorem as well as specific duties. The specific duties will be applied only in the seasons of the year in which foreign imports come in competition with Canadian grown fruit and vegetables.

The announcement of the finance minister was greeted with applause by the Conservatives who expressed the opinion that he had become a convert to the seasonal tariffs they had been advocating.

When the upsur had quieted, Mr. Dunning explained that the decision to limit the specific duties to certain seasons instead of the entire year had come as a result of conferences with the fruit and vegetable growers. They had expressed willingness to co-operate in this connection. He could not promise that the reasons would suit all the growers.

He said that the Pacific coast, because of the many differences as to the dates when such products are marketed there, but an attempt had been made to deal as fairly as possible with all.

The House spent the entire day on budget resolutions, and some progress was recorded. The ten items, as amended by the budget, was finally approved. Under this item, Canada free from the British preference, and is subject to duty of nine cents, intermediate and ten cents, general.

Approval was also given to the resolution which declared that such duties or taxes shall be disregarded in estimating the market value of goods imported into Canada. These commodities come in under the British preference, or intermediate tariff. The resolution passed, however, only after a certain conservative member declared that the Canadian silk industry would suffer through the admission of Japanese silks.

## BILL ON LIQUOR CLEARANCES TO STATES PASSED

Ottawa, Ont.—Without a recorded vote, the senate gave third reading to the government bill prohibiting the clearance of liquor to the United States.

The bill, introduced by Hon. Rufus Pope, to the effect that the bill should not come into effect until proclaimed by the governor-in-council, was voted down by a majority of 20 votes. The vote was registered for 10, against 30.

Although several senators spoke against the bill, there was no registered vote on the main motion. A clerical error, the substitution of the word "exportation" was corrected in amendment, and thus the bill will be referred back to the commons before becoming law.

Sir George Foster, for years one of Canada's chief temperance workers, said it would be just as reasonable to believe the people of the United States, through the imposition of the bill against alcohol. It followed that Canada's only proper attitude was to prohibit the flow of liquor into that country.

In favoring the bill he said the principles upon which it was based set forth both in the report of the Honorable committee investigating the customs department in 1926, and in the report of the royal commission which extended the probe. Criticism, he said, should be made against the government for not implementing the contents of the royal commission report, but this would not detract from supporting the measure now that it had been passed.

It would be just as reasonable to clear liquor from Cuba to United States, because of the convention between those countries, he said. Therefore, he did not believe in the contention that the bill would divert the flow of liquor to Cuba; it might be possible to do so, but this would not detract from supporting the measure now that it had been passed.

Senator Macdonnell announced he would support both the bill and the amendment.

President Balfour reiterated what he said during a earlier debate on the measure, that the passing of the bill would mean a great deal to the people of the country had duty to perform. It must shoulder the financial loss and perform its international duty of goodwill.

Senator Macdonnell announced he would support both the bill and the amendment.

Senator Macdonnell announced he would support both the bill and the amendment.

Senator Macdonnell announced he would support both the bill and the amendment.

## New Minister To Canada

Hanford MacNider Is Chosen For Position At Ottawa

Washington, D.C.—Mr. C. H. Hanford MacNider, of Mason City, Iowa, is the United States minister to Ottawa.

President Hoover has chosen and the Canadian Government has approved a distinguished soldier and statesman, who will be replaced by Hon. William S. Phillips. Colonel MacNider is a Harvard man, former assistant secretary of the American Legion. He is 51 years of age.

He entered the Coldridge administration as assistant secretary of war in October, 1925, serving until May, 1928.

Colonel MacNider's career as a business man and financier has been eminently successful. He is president of the First National Investment Company, of Mason City; vice-president of the First National Bank, treasurer of North Western States Portland Cement Company.

## Radio Stations For North

Two Will Be Added To Network Linking Up Arctic With West

Ottawa, Ont.—Involving an expenditure of approximately \$80,000, two low power radio stations are to be established by the Dominion Government in the far north, one at Coppermine, Curlew Gulf, and the other at Chesterfield Inlet.

In addition to the network stations linking up the Arctic with the rest of Canada have already been approved by order-in-council and the work of installation is to be carried out immediately by the Department of Marine and Fisheries.

Decision to establish the Coppermine station is timely in view of the influx of prospectors which is anticipated in the north. Both stations are to furnish meteorological reports which will have an important bearing on the navigability of the Hudson Bay route.

Small gliders are being offered in England at \$200 each.

## CHAMPION CHATTER

VOL. 3

Thursday, MAY 28, 1930

No. 24

Published in the interests of the People of Champion and Farmers of the vicinity.  
GEO. L. DEPUÉ, Editor.

**His Money's Worth**  
"Look Papa, Abbie cold is cured and he still got two boxes of cough drops left."

"Oh, oi, vat extravagance. Tell him to go out un get his feet wet again!"

Jim Bowman is going to make quick work of a big job from now on. He just got a new Mc-Greg Harvest Flow.

"Say Boy," "I've got a kit that's only been kissed by two parties." "Yeah," "I know them kind, by the Conservatives and Liberals."

The old-fashioned family doctor is disappearing. So is the old-fashioned family.

A Cream Separator to operate economically and efficiently over a long period of years.

"Good Equipment Makes a Good Farmer Better."

must have a system of lubrication that is positive and accurate under all operating conditions. The Mc-Grig ball-bearing cream separator is lubricated by a splash force-feed oil-circulating system. Every running part receives a bath of oil, yet there is not an oil cup or oil hole on the machine to clean or fill.

The spindle driving gear revolving in a metal trough sprays the oil to every bearing and moving part. This feature—long desired by cream separator users—reduces friction, prevents wear, assures long life, and provides a quiet, smooth-running machine.

How we love it. Everybody likes battery, and when F. Caldwell told us our service was as good as our line of Mc-Grig Tractors, we just bubbled all over and bought cigars for the crowd.

There may be splinters in the ladder of success, but you don't notice them unless you are sliding down.

"Bake Ruth walked today." "Gosh, she should be more careful whom she rides with."

Mr. and Mrs. A. B. Caldwell who returned from California three ago, left for Browning Mont on a visit.

Mrs. Clarence Davis entertained on Wednesday in honor of her mother's birthday, Mrs. Miller of Stavelly. Many beautiful presents were received.

Miss Annie Gricecock has purchased the house formerly owned by Mrs. Steeves, and is making considerable improvements on the property.

Nanton and the surrounding district is suffering a great loss this year in the number of trees, poplar, willow, Caragana, and pine which during the winter died. There are few homes where some are not found brown and bare amid the surrounding green. In a drive of about 15 miles scores of dead trees could be seen.—Albertan.

Champion baseball team won second money at Vulcan on May 24th, winning from Stavelly in the first game and losing to Vulcan in the final.

Champion was well represented at Vulcan on the 24th of May, and the Prince of Wales ranch and Calgary also had a quota of visitors from the wheat centre.

Mrs. T. Gill and family have the sympathy of their friends in Champion in the loss of a daughter and sister, Mrs. Warren of Seattle. Mrs. Warren has been ill for some time passing away on Saturday May 24th.

Mr. James Ellis, who has been in the Holy Cross hospital, Calgary, for the past week seriously ill with pneumonia which followed an operation, is reported to have passed the crisis of the dread disease and is on the way to recovery. Many friends here were relieved when the word came.
